Hi, Like every teenager i like to fool around with the phonesystem, but all txt.files are talking about a company called Radio Schack and its cristals , but as I live in Belgium (Europe) all these txtfiles seems nonsense to me, cause i can't buy these radio receivers or voice data recordables. Is there in Belgium a Radio Shack Company or at least in West-Europe? Please help Thanx Swampy (sdu...@club.innet.be)

I believe they don't operate outside the U.S. Radio Shack is electronics-hobbyist heaven; they sell all sorts of various components and pieces, as well as complete consumer electronics products (like tone dialers heh, heh, heh...)

I am not sure but Radio Shack might do Mail order?

Radio Shack is good for their Dialers, but if you want the crystal, you better be glad you dont have one around. Ive been to many Radio Hacks and not one of them knew how to order the crystal

I am not sure but Radio Shack might do Mail order? Radio Shack operates in many other areas of the world other than the US. A company called Intertan, based in Barrie, Ont. operates stores in Canada, United Kingdom, and Australia. They previously operated stores in continental Europe, but pulled out about 6 or 7 years ago. In some parts of the world, the stores are called Tandy or Tandy Electronics . Tandy Corp. also operates Radio Shack stores in other parts of the world through a export division

Please help Thanx Swampy (sdu...@club.innet.be) Okay, if my geography serves me correctly, you are about 5 and a half inches away from my favorite radio shack, which is in Ottawa Kansas, well, at least by my trusty pocket globe. I don't know if you have any Rat Shacks in Europe. Good luck in your search. -=White Rabbit=- But I have yet to attain super galactic omnipresent oneness! Jim Carey, Ace Ventura When Nature Calls
