Company : Algomod Technologies Corp. Website : <http://www.algomod.com> Job Title : Systems Administrator
Location : CINCINNATI, OH Job Type : Contract ===== Algomod Technologies Corp.
This opportunity is at Algomod Corporation, a computer consulting company servicing clients in the NYC and Washington DC metropolitan areas since 1977. Mission: Algomod's mission is to effectively provide our select clients with the technical resources to achieve industry leadership. Our commitment to qualitatively superior service promotes long term relationships which foster dynamic, innovative collaborations, enabling both our clients and our staff to realize the highest level of growth and satisfaction. Most of our business is in new technologies utilizing Object Oriented tools and structured development methodologies including Oracle, Sybase, PowerBuilder, Visual Basic, Visual C++, all under UNIX and MS-Windows in Client/Server architecture. We are currently involved in major development efforts for Fortune 500 companies in the banking, brokerage, telecommunications and insurance industries. Relocation allowance for this position is possible for the right candidate. Any candidates with 3 or more years experience are encouraged to apply. Project: Application Support The incumbent will provide day-to-day application support related to one or more 7X24 network data systems, running in UNIX, NT and/or MVS environment. Duties to include some combination of application processing (monitoring of application batch and onlines, integrity checking, online start/stopping), platform operations (checking and responding to system and third party software log entries and alarms), application change management/implementation (change assessment, scheduling tool updates, test planning/execution), client support (assisting clients in use of these systems) and problem management. Position will also be responsible for interfacing between the Clients and Developers, to ensure that system developmental requirements are clearly defined. Desktop environment is Windows NT on a TCP/IP LAN. This is actually an application support position. People skills are as important as the technical skills. Experience Level: Expert Travel Required :None Educational Requirements :None = Required Skills * Client/Server * HP * Shell Prog. Lang * UNIX = Definite Pluses * C * Customer Support * HP-UX * Mainframe = To be considered for this position, or future opportunities at Algomod Corporation, please send your resume to: Recruiting Algomod Technologies Corp. 116 John Street New York, NY 10038 FAX: (212) 306-0188 PHONE: (212) 306-0100 E-Mail: sel...@algomod.com All information will be treated in a confidential and professional manner.
